## Institut National du Cancer (INC)

**Let's act today for  
tomorrow's healthcare!**

# Our missions

## PROMOTE

outcome-based evaluation of cancer care

## SUPPORT

the introduction of “personalised medicine” (new approaches to diagnosis and treatment)

## FEDERATE

inform and provide scientific leadership for the actors in the field of oncology and cancer care

## FACILITATE

the certification of healthcare providers in oncology

# Our activities

The INC coordinates **national Tumour Boards (TB)** to bring together experts from various specialities to discuss rare, poor-prognosis cancers and complex clinical cases.

At the same time, the Institute develops national **guidelines** and **patient pathways** to ensure harmonized, coordinated, and patient-centered care at every stage of the journey.

## 2025 in numbers

**10** years of activity

**141** national TB organized

**1067** cases discussed

**5** Updated guidelines & patient pathways

**48 809** LinkedIn impressions

As part of the **National Cancer Plan (PNC2)**, the INC coordinates several national initiatives aimed at improving information and support for patients, particularly through the process of **delivering a diagnosis** and the development of the **Cancerinfo.lu** platform.

In addition, the INC is strengthening European cooperation through its participation in several projects such as **EUnetCCC**, **EU-CIP**, **JANE-2**, **ECHoS**, and **PCM**, promoting innovation, personalized medicine, and the sharing of expertise.

**1** new website

**12** national consortium partners

**+70** experts mobilized for the future national CCC

**5** major ongoing European projects
